

LAKE DETROITERS
ASSOCIATION
Inc.

SIXTH ANNUAL BULLETIN

Report For The Year **1955**

Our Fiscal Year, May 1, 1955 To May 1, 1956

The President's Message

It is a pleasure for your officers and directors to present this, our Sixth Annual Bulletin. In it you will find reports of the activities of our Association during the past year. We ask you to study it and suggest that it be kept as a reference of efforts which have been made to solve the problems of our Lake Community. You will also find a financial report, reports of committee activities and much other interesting information. We want to tell you that your suggestions, ideas, and help are welcome and recommend that they be brought to the attention of the proper committee. This is your Association and it will prosper and bring each of us benefits in full measure according to our participation and interest.

Soon we will have our Annual membership drive and the board urges that all of us give our fullest cooperation to this matter. May we say that many of you did not pay your dues last year, no doubt an oversight, and we invite you all

to catch up. We have offered in the past and again this year offer to our members special projects in which you can participate only if you are a paid-up and qualified member. These projects can be much more effective and of greater benefit to us if our participation is larger. We, of your board ask your continued interest and request your attention and active participation in all our projects. Let us all sign up and pay our dues this year without delay. Let us all indicate our interest in our project by participation in them, some require small expenditures such as weed and mosquito control, others require merely interest and willingness to give a little of our time and energy to them. Please when YOUR zone captain calls on you give him your active support, pass on to him YOUR problems, inspire him to work harder by sending in YOUR dues, by signing up for the programs offered, by giving him suggestions which will make OUR Lake Community a better place in which

WE can live in a neighborly manner.

The board also wishes to thank all who have given and all who will serve us in the activities of our organization. We need full cooperation to solve problems such as Sanitation and pollution, land and lake weed control, water-level control, watercraft regulation, the ever present tax problem, roads and utilities, just to mention a few. Progress has been made on all of these but much remains to be done and requires the ever willing participation of all of us to reach final success.

Our Annual meeting will again be held in early August and we ask that you all attend when notice is sent to you. Make this your Association by being interested and by giving your help whenever possible to further our progress. Now may we wish you all better living and greater happiness here in your home on our lake.

WILLARD E. RANDOLPH,
President

Officers And Directors

OF THE LAKE DETROITERS ASSOCIATION, INC., for the year 1955-56 are shown in the photo above. They are, front row, left to right—Robert L. Bratt, Nason Bay, director; Willard E. Randolph, East Shore, president; George H. May, Taylor's Point, vice president. Back row—Abel W. Hedlund, White Clover Beach, director; William F. Hoganson, Deadshot Bay, director; Carl J. Nedberge, Nodaway Beach, director and Bradley C. Marks, Burritt Beach, director. Missing from the picture is D. C. Brandvold, West Shore, secretary-treasurer and William G. Akeley, North Shore, director.

Meetings Of The Association . . .

Meeting of Board of Directors

May 14, 1955, 12:15 p. m.

Meeting was called to order by President Harold Carlson. Members present were Harold Carlson, Willard Randolph, Henry Steining, William Hoganson, Sam Chesley. It was noted that the new bulletin is out, and a motion was made by Carlson, seconded and passed that a vote of thanks be given to Clarence LaSelle for his efforts and fine job in getting all materials together and published.

A suggestion that a committee meeting of the membership committee be held was made by Hoganson. It was agreed that those present would contact all possible new members. Mr. Hoganson was to contact the members of the committee and get the ball rolling.

A discussion of the committee work was punctuated with the suggestion that material held by committee chairmen of previous years be turned over to the acting chairman. It was felt that a smoother grasp of the work already done and that remaining to be worked on would result.

Discussion of watercraft regulations as published in the bulletin was held. Sam Chesley agreed to get the local papers to follow up on this item. It was also felt that a radio plug on the same subject would be beneficial. There was general discussion on the subject and concern was high over the real importance of proper regulation, also some talk on how to really get the beaters to comply.

There was some discussion of the subject of control of pollution of the waters of the lake. The letter included as part of the committee report and published in the bulletin was re-read and talked about. Chairman Willard Randolph expressed his thanks to member Bill Humphrey for his assistance in framing the letter to the city council. The council let-

ter to the Milk plant was discussed, it being a carefully worded appeal to the plant to now cooperate, in view of the fact that the city had completed the sewer facilities needed. Everyone is awaiting the reply which will be made to that letter by the Milk Plant Management. It is certain that this prevailing condition can no longer be tolerated as it contributed much to a bad lake water and weed condition.

Discussion of the weed control problem was held. It was announced that the plans were to have spraying again this year for this purpose. There was also talk about mosquito control. It was urged that this be stressed in contact of new members as an important part of our combined efforts to make the lake more inviting and pleasant.

Meeting closed in due form.

WILLARD RANDOLPH,
Acting Secretary

Meeting of Board of Directors and all Members of the Membership Committee called July 2, 1955.

Members attending meeting: R. L. Bratt, H. F. Carlson, Sam L. Chesley, Wm. F. Hoganson and Henry Steining.

Meeting called to order by President H. F. Carlson.

Motion made by Steining that statements be printed and sent out to those owing dues for 1955 and that the mailing be done outside. Motion was seconded and voted on favorably.

A discussion of ways and means of securing new memberships was held and W. F. Hoganson was to see what he could do with the members of his committee.

Suggestion was made that contour maps of the lake such as were printed in the annual bulletin be printed up and made for sale. Voted down.

Moved by R. L. Bratt and seconded by W. F. Hoganson that the annual meeting be held August 6th, 1955, at 2:30 p. m. at the

Detroit Lakes Country Club and that notice be published in the papers.

Post cards to be mailed to membership on annual meeting and to other lake dwellers.

President Carlson asked for names for the nominating committee for the coming year and the following were appointed: S. L. Chesley, chairman; F. R. Hollands and Henry C. Steining, members.

Mr. Chesley reported on watercraft regulations and asked to have Clem TeVogt appointed to enforce regulations. Chesley to confer with the sheriff's office and see if he can not have TeVogt appointed a Deputy.

Meeting adjourned at 2:10 p. m.

R. L. BRATT,
Secretary

Meeting of the Board of Directors 7-30-55

A meeting of the board of directors was held at the Graystone Hotel on July 30th at noon.

Members of the board present were Don Brandvold, R. L. Bratt, H. F. Carlson, Sam L. Chesley, W. F. Hoganson and Willard Randolph. Also in attendance was W. D. Humphrey.

Control of the lake level was again brought up by President H. F. Carlson and it was suggested that the association should try to do something about it. The present dam at the outlet of Detroit Lake is very much outdated and should be replaced with one that could be controlled. Mr. John Krier of the Graystone Hotel was called into the meeting and he stated that the Rotary Club had suggested that it would be a good idea to again have a series of locks out of Detroit Lake so that boats could pass through as they did several years ago. He also stated that many of the old timers coming back to Detroit Lakes had the desire to see locks out of the lake again.

A discussion was had on the matter of agenda at the coming annual meeting.

Mr. S. L. Chesley reported on watercraft regulation to the effect that he had contacted the sheriff with regard to making the big dock operator, Clem TeVogt, a deputy but as this could not be done the sheriff advised that if TeVogt would watch for violators and call him he would take care of them immediately. It was stated that a meeting on watercraft regulations was to be held in the county commissioners' office in the court house on Wednesday, August 3rd. Also taken up was the fact that the logs out in the lake at the Edgewater Beach Hotel were not properly marked and that Mr. Krier should have something done about it.

Due to the fact that our membership is down it was decided to

Sam Chesley

It will be hard for many of us to start the summer's activities without the presence of Sam Chesley. He spurred us on to bigger and better improvements in our water sports and the preservation of the beauty of Detroit Lakes and their shorelines. His thoughtful planning and vital interest in our summer community was outstanding. He won the love and respect of us all. Let's carry out the plans he had made and then make new ones to keep his alive.

have a membership drive on August 13th and again on August 20th, letters to be mailed out to all lake residents whom are not at present members of our association and then personal calls to be made on the 13th and 20th. The above was motioned by Don Brandvold and the 2nd was by W. F. Hoganson and passed by all members present.

No further business to come before the board. The meeting was adjourned at 3 p. m.

R. L. BRATT,
Secretary

Report of the Secretary-Treasurer to the members of the Lake Detroiters Association

Your board of directors held six meetings since our last annual meeting and many matters of mutual benefit to all members of the Lake Detroiters Association were taken up and something was done about them.

It is with regret that we report a sharp decrease in membership and are in hopes that the coming year will be much better, as we know that a large organization can swing a bigger stick when necessary.

It is not enough to be just a paying member in an organization. While we need the money to carry on there are many other jobs that as members we could do. When you are picked on a committee it is your duty to fulfill your obligation to that committee. Too many riders and your organization will break down and cease to function.

Meeting of the Board of Directors August 20, 1955

A meeting of the board of directors was held at the Park Hotel at which time the new slate of officers took over.

The following members of the board were present: W. Randolph, B. C. Marks, A. W. Hedlund, W. Hoganson, Carl Nedberge, Geo. May and R. L. Bratt.

The meeting was called to order by President W. Randolph at 2:45 P. M.

The following officers were elected for the year of 1956: Willard Randolph, president; G. H. May, vice president; Henry Fligelman, secretary and treasurer.

A board meeting is to be held at the Graystone Hotel on September 10th (noon).

R. L. BRATT,
Secretary

Board Meeting, Graystone Hotel May 20, 1956, 8:30 A. M.

Motion made to accept H. Fligelman's resignation and give the president authority to appoint a new board member.

Motion made to pay the secretary \$100 a year as a salary. Passed unanimously.

Moved and seconded that Don Brandvold be appointed secretary

and treasurer. Brandvold contacted and he accepted.

General matters of all committees discussed.

Membership committee meeting to be held the Saturday following publication of bulletin. Secretary to advise all zone captains by letter.

Members present: W. Randolph, W. Hoganson, R. L. Bratt, Geo. May, A. W. Hedlund, Wm. Akeley. Meeting adjourned 10:45 A. M.

R. L. BRATT,
Secretary

Minutes Of Annual Meeting . . .

August 6, 1955

Meeting held at the Detroit Lakes Country Club. Meeting called to order by President Harold Carlson at 2:40 P. M.. There being a quorum present regular business was conducted.

Committee Reports

Membership committee—Wm. Hoganson, Chairman. Hogan reported that there was very little done in the way of any membership drives and that it was hard to get any activity out of a committee.

Utilities and Taxes—Henry Steining, Chairman. Reference can be made to the bulletin for the activities of this committee. An attempt has been made to get lake shore property into a different classification as far as taxes are concerned. However, so far nothing has been accomplished and it is suggested that we make another attempt to have this done.

Water Craft Regulation—S. L. Chesley, Chairman. Approval has been given in case of water craft violations to call the sheriff's office and secure someone from that office to see that those violating the regulations are stopped. Mr. C. TeVogt, Big Dock operator, will assist the sheriff's office through the use of his speed boat. It was also suggested that deputies be appointed without pay to help in this work.

Insect and Land Weeds—D. C. Brandvold, Chairman. Written report included in minutes. Motion was made to release this report to the papers with the permission of Mr. Brandvold.

Pollution and Sanitary Committee—W. Randolph, Chairman. Complete written report made and letters to the North Star Dairy and the Mayor of the City attached.

Water Level Regulation—Carl Nedberge, Chairman. Complete written report attached.

Property Protection—Stewart Schliff, Chairman. It is suggested to carry ample insurance on property and to avoid the temptation, leave nothing around that may encourage theft. It was also suggested that placards be sent out and put up stating that a

\$50.00 reward would be offered for information regarding anyone molesting property.

Fish and Game—Bill Reid, Chairman. The fish and game department has again refused to give us any spawn for planting in Detroit lake, however, it was suggested that we again take over the Tong ponds.

Weed and Algae Committee—Thomas Rogstad, Chairman. It was reported that a fairly successful kill was affected on the weeds this year, an estimate of approximately 50 per cent. The State Fish and Game Department checks the amount of concentrate that is used in order to be sure that it is a safe operation as far as our fish are concerned.

Annual Bulletin Committee—Clarence LaSelle, Chairman. No comments.

Secretary's and Treasurer's Report—Read and Accepted.

No report was made by the auditing or the road and traffic committees.

It was decided to hold a board of directors meeting at the Park Hotel on August 20th at 1:30 P. M.

It was decided to have the newspapers publish a story concerning all of the refuse that is thrown on the ice or left on the ice during the winter. This refuse is not only unsanitary but has caused some accidents due to feet being cut from broken bottles.

A nominating committee was appointed consisting of Wm. Hoganson, Carl Nedberge, W. Randolph, Henry Fligelman, A. W. Hedlund, B. C. Marks, George May and Wm. Akeley.

Meeting was adjourned at 4 P. M.

A P L E A !

Some of us cannot wait any longer. We have to try to do something about "Progress," at least what is too often called Progress.

The invention of the bulldozer seems to be a large part of Progress. What we would like to do is put a governor on the bulldozer. We wonder if hand in hand with Progress we could not join the hand of the Past.

The bulldozer is a marvel and a wonder for certain kinds of necessary clearing for some types of development. But lately it's being used with too free a hand, with unprecedented violence and with destruction of beauty that is heart-breaking to say the very least.

We're pleading for the trees and hills and lakes, all the blessings that make Minnesota Minnesota. Please, please, everyone, those of you who plan our parks and our lake fronts, those who live here and those who spend summers here, look at your trees and your views before you mow them down and be glad they're here for you to work with, not against. Remember, what has drawn people to our community, more than its imitative developments, has been its unusual, natural beauty.

✦ ✦ Committee Reports ✦ ✦

Weed Control . . .

Our weed control spraying was done in the middle of July that year. The object of a late spraying was to kill the early maturing weeds before they had gone to seed; and to catch the late growing ones as they were coming up. We felt that in the previous year the spring was so late that our June spraying had completely missed that late growing weed crop.

The total length of shore line treated was almost 2 miles. The spraying went out 300 feet at a cost of 25 cents per front foot. The actual operation was carried out under ideal weather conditions and the immediate kill was at least 50 per cent. (Incidentally, your committee arrived at this figure after an on the spot check with a diving mask.) Since the initial check on weed kill we have had reports on the success of the operation ranging from very enthusiastic to neutral. Perhaps the areas most closely watched were the public bathing beach and the Edgewater Hotel beach. Our reports in these areas were very, very favorable. There are so many variables, of course, that we can not expect a uniform kill over the entire 2 miles. Variable factors are types of bottom, springs, variations in depth and types of weeds.

The Sally-Melissa group again worked with us in spraying. Dr. Domogalla of Butler, Wisconsin, carried out the project. The advantage of the two groups working together is that the operation is much cheaper when we can spray at least five miles of shore line.

Our recommendations for next year are these:

1. Spraying operations be resumed in 1957.
2. The spraying be done as near July 4 as possible.
3. Anybody desiring to have their lake front sprayed should get together with their neighbors and line up a solid block of shore line at least 600 feet long.

(We obviously cannot spray 50 feet here and 75 feet there. It isn't as effective for one thing and isn't economically efficient. The committee should then be informed of the area by March 1, 1957.)

Sanitation And Pollution . . .

Mr. Harold Carlson, President, & Members of:
Lake Detroiters Association, Inc.

This is a report of activity of your Sanitation & Pollution committee chairman during the past year. You have all been aware of the condition caused, in part at least, by the flow of waste water into the Pelican river from the dry milk plant located within the

limits of the city. This has been a thorn in our side for many years and attempts have been made repeatedly to get action to eliminate this spillage in to the stream and from there into the lake.

I must admit that little was done during the early months of our past year, due partly to failure on the part of your chairman to take hold of the problem, partly because no file was furnished him on the activities of the past. It was in the early fall when first a letter was framed with the assistance of Mr. Willard Humphrey addressed to the city and asking their assistance in getting compliance from the plant to a directive from the city relative to connection to a sewer provided by the city and to which it had been agreed that the flow of waste water would be directed. It was then decided to withhold the letter inasmuch as the city election was coming up and new council and Mayor would likely be elected.

In April of this current year the letter was re-written and addressed to the new Mayor and Council. This letter attempted to cover the entire history of the problem and to explain to them the problem as it is. They were requested to write the plant manager and to get his reaction to the problem. This was done and a copy of their (the council's letter) letter is enclosed in this report. We understand that the plant replied to the council letter stating that they are in financial stress at this time and are now refinancing. This plant, as you know, is a cooperative financed by the federal government and we are made to understand that they have to get permission from some upper authority before they can make any moves relative to changes, alterations or expenditures.

Your chairman had a visit on Thursday and Friday last with the now retired former manager and discussed the problem with him. He states and, of course, it is a singular and individual expression, that he believes that the plant wants to comply with the city's directive, and that they, he is sure, would welcome talking about it. He did state that they are now trying to get refinancing arranged and that their operations will be reduced for some time until that is completed. He did state, too, that they felt that the city should bring the sewer to a point closer to the plant as it now is arranged so that they would have to cross other property at great expense. He stated that it would also be necessary to put in a basin and a lift pump to complete the connection.

You can rest assured that now that we have our teeth into this problem that we will continue to follow it with interest. The feeling that I have about it is that it can be settled in a satisfactory

manner within the following year if it is closely followed. I would recommend the committee to continue to discuss it with the plant management and with the city council and any others interested.

There are, of course, other sources of pollution of the lake and we should, I believe, continue inspection of shore line sanitary installations and insist on complete compliance with state regulations concerning their construction. There are definitely other sources of pollution and they, too, should be corrected.

In closing this report may I tell you a little story about a boy learning a trade. I remember a time when I was confronted with a great pile of brick which was to become the wall for a building. I looked at it and trembled at the immensity of the task before me. I appealed to the superintendent in this manner, saying, we will never be able to do it. His reply was, son, just take it one brick at a time and it won't be too difficult. The building was completed in due time and it turned out to be not so difficult a task as it had seemed to be. I highly recommend that we follow up our problem in that manner.

Respectfully,
W. E. RANDOLPH,
Chairman

Insect And Land Weeds Control . . .

I regret to inform you that this committee has not been very active during the past year, one of the main reasons being that I left the community in December and was not able to spend a great deal of time working on some of the problems in regard to the control of insects about our lake area.

There has been considerable spraying done on different areas of the lake for the control of mosquitoes and there has been no great damage reported in regard to the army worm, at least up to this time.

In regard to the motion which was made at the last annual meeting in regard to the possibility of having town boards of both Lake View and Detroit townships, and also the city of Detroit Lakes do an overall job of spraying for mosquitos, and thereby levying the tax allowed by law in each case on the respective property owners, there has been nothing official done on this matter other than to contact some individual officials who felt that it could be done but still it was going to present a problem in regard to some of the area which would have to be covered in an overall spraying proposition. In talking with a number of members about the possibility of having an overall spraying of the area a great number of them were very much in accord as the main

criticism for the individual spraying being that one cottage owner would spray his property and others in the area would not, thereby creating a very ineffective job if other surrounding properties were not sprayed, some of the cottage owners were very hesitant about the efficiency of just spraying their property. A great number felt that if one is sprayed that all should be sprayed in order to do an effective job, also that some of the low land swamp areas should be treated as well. I think that this Association should make a determined effort to have the surrounding areas of Detroit Lakes sprayed for mosquitos so that an effective program can be worked out, and the cost would be assessed against the individual property owners, thereby eliminating the argument that one sprays and the other does not. It surely would eliminate the problem of trying to do an effective job and also control the insects. As we are all aware the present law would allow local governments to access one mill for such work. I believe if facts and figures were compiled it would not amount to the one mill levy.

Respectfully submitted,
D. C. BRANDVOLD

Water Level Control . . .

This is intended to be a short report. I'm rather discouraged. We couldn't help that the rains came—a couple of inches of water we can always use—but 7 or 8 inches in 2 or 3 days, that is serious.

At the present time our water level control is entirely inadequate. Our committee lacks authority to accomplish that which needs to be done. Our association lacks the funds to accomplish that which needs to be done and perhaps it also lacks the authority.

Perhaps most of you know that Detroit lake has three inlets besides the city storm sewer system. When heavy rains fall, water accumulates in the lake rapidly, because it can't be let out nearly as fast as it comes into the lake. In the last few days we have had demonstrated to us how this lake level business works. The rise in the water level continues for a considerable time even after the rains have stopped.

How can a more effective or flexible control be brought about? A wider and deeper outlet is needed. Perhaps the high or excess water could then be spilled out about five or six times as fast as now. This would, of course, prevent the lake level from rising much above normal.

We don't like to criticize the present management of the lake level. I think an error in judgment took place before the recent heavy rains came. Perhaps there

is insufficient familiarity with the problems involved. Last May a plank was placed over the Pelican river outlet to raise the lake level above the 3.90 height set by the State many years back. This action was taken just prior to the beginning of our normal heavy precipitation period which occurs in June and July. As a consequence, the lake was already above normal when the water from the last heavy rains was added. As far as I know, no member of our Detroiters Association water level committee was notified or consulted before the plank was placed. Personally, I was not aware of the change until I noticed a rise in the water level at my dock.

It appears to me that there should be a division of the authority to control this lake level. There was a time when the city of Detroit Lakes was dependent on our lake for its water supply. This is now no longer the case since they have an adequate well system. The city owns less than one per cent of the shore line of the lake yet it is charged with the

burden of adjusting a water level which affects the entire shore line. I do not doubt the sincerity of the authority in question but believe that the matter could be better resolved if our Association had at least a small measure of representation.

An unduly high water level has many serious consequences. I think we are all aware of this. The flooding of boat and swimming docks is a minor problem. Docks can be raised. The flooding of basements and septic tanks is serious and can lead to serious inconveniences, if not contagion. The damage to shore lines and beaches is costly and can lead to serious depreciation to our properties.

Perhaps these recent rains have served a good purpose by bringing into focus some of the things that should have received more attention long ago. The sooner we can thoroughly analyze this situation, the sooner we will be able to take proper corrective measures.

C. J. NEDBERGE,
Chairman

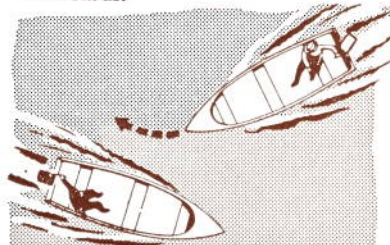

IMPORTANT FEDERAL TRAFFIC RULES:

1. Sailboats and rowboats without motors have the right of way over outboards.

2. Keep on the right side of a narrow channel or canal.

3. When approaching another boat head-on, swing to starboard.

4. When approaching another boat at an angle, give way if she's off your starboard beam (the rule you know on the highways: give way at an intersection to the car at your right).

Small Boat Regulations

CHAPTER 706—H. F. NO. 1003
AN ACT relating to the use of Small Boats, Motorboats, and Sailing Vessels, prescribing Safety Measures in connection therewith, providing penalties for violation; amending Minnesota Statutes 1953, Section 361.01; repealing Minnesota Statutes 1953, Sections 361.05, 361.22 to 361.27.

Be it enacted by the Legislature of the State of Minnesota:

Section 1. Subdivision 1. For purposes of this act, the following terms have the meaning ascribed to them in this section.

Subd. 2. Person, means any individual, firm, corporation, part-

nership, company, association, trustee, administrator, executor, receiver, assignee or personal representative thereof.

Subd. 3. Boat means any vessel less than 26 feet in overall length used for transportation on or in water.

Subd. 4. Motorboat means any vessel less than 26 feet in overall length and propelled by machinery, including vessels equipped with detachable motors.

Subd. 5. Commissioner means the Commissioner of Conservation of the State of Minnesota.

Sec. 2. Subdivision 1. Every boat when underway, shall carry on board from sunset to sunrise but not fixed to any part of the boat a lantern or flashlight cap-

able of showing a white light visible all around the horizon at a distance of two miles or more and shall display such lantern in sufficient time to avoid collision with another boat.

Subd. 2. Sailboats, including those with outboard motors, under 26 feet in length, propelled by sail and machinery or by sails alone, shall carry a bright white light to show all around the horizon. In addition, such boats when so propelled shall carry ready at hand a lantern or flashlight showing a white light which shall be exhibited in sufficient time to avert collision. Every white light prescribed by this section shall be visible for a distance of two miles or more. The word "visible" when applied to lights shall mean visible on a dark night with clear atmosphere.

Sec. 3. It is unlawful to use a boat propelled in whole or in part by gas, gasoline or naphtha unless the same is provided with a stock factory muffler, underwater exhaust or other modern devices capable of adequately muffling the sound of the exhaust of the engine. The phrase "adequately muffling" shall mean that the motor's exhaust at all times be so muffled or suppressed as not to create excessive or unusual noise. The discharge of cooling water through the exhaust of an inboard engine shall be considered an adequate muffling device. Motorboats may be operated with cut-outs or mufflers open while actually competing in any race licensed to be held by the council or other governing body of the city, village or town nearest to that portion of water on which such race is to be held.

Sec. 4. Subdivision 1. Every operator of a motorboat shall at all times navigate the same in a careful and prudent manner and at such rate of speed and along a course as not to endanger the life, limb or property of any person.

Subd. 2. It is unlawful to operate a motorboat in a careless or reckless manner. Reckless navigation of a motorboat shall in-

clude operating the same in a manner which unnecessarily interferes with the free and proper use of the navigable waters of the state or unnecessarily endangers other boats therein, or the life and limb of any person.

Subd. 3. No person shall operate any motorboat at a rate of speed greater than will permit him in the exercise of reasonable care to bring the motorboat to a stop within the assured clear distance ahead.

Sec. 5. Subdivision 1. When two boats are approaching each other "head on" or nearly so, so as to involve risk of collision, it shall be the duty of each boat to bear to the right and pass the other boat on its left side.

Subd. 2. When boats approach each other obliquely or at right angles, the boat approaching on the right side has the right of way.

Subd. 3. One boat may overtake another on either side but must grant right of way to the overtaken boat.

Sec. 6. Subdivision 1. No person shall so anchor a boat for fishing or other purposes in such a position as to obstruct a passageway ordinarily used by other boats.

Subd. 2. No person shall operate a motorboat within a water area which is clearly marked by buoys or some other distinguishing device as a bathing or swimming area.

Sec. 7. Any person mooring any boat to any of the buoys or beacons placed in any waterway by the authority of the United States or by the authority of a commission or subdivision thereof, or in any manner hanging on with a boat to such buoy or beacon shall be guilty of a misdemeanor.

Sec. 8. It shall be unlawful for any person who is under the influence of intoxicating liquor or narcotic drugs or barbitol or any person who is a habitual user of same to operate, propel or be in actual physical control of any boat. It shall be unlawful for the owner of any boat or any person

having such in charge or in control to authorize or knowingly permit the same to be propelled or operated by any person who is under the influence of intoxicating liquor, narcotic drugs or barbitol or any person who is a habitual user of same.

Sec. 9. The operator of any boat involved in an accident resulting in injury or death to any person or in damage to property shall immediately stop such boat at the scene of such accident and shall give his name, address, full identification of his boat and the name and address of the owner, to the person struck or the operator or occupants of the boat collided with, and shall render to any person injured in such an accident reasonable assistance and shall report such accident to the nearest or most convenient law enforcement agency or office.

Sec. 10. Any person who shall violate any provision of this act or regulation promulgated thereunder is guilty of a misdemeanor.

Sec. 11. Minnesota Statutes 1953, Section 361.01 is amended to read:

361.01. The following regulations for preventing collisions shall be followed by vessels 26 feet or more in overall length navigating lakes and rivers in the State of Minnesota:

In the following rules every steam vessel which is under sail and not under steam is to be considered a sailing vessel; and every vessel under steam, whether under sail or not, is to be considered a steam vessel.

The words "steam vessel" shall include any vessel 26 feet or more in overall length propelled by machinery.

A vessel is "under way" within the meaning of these rules when she is not at anchor, or made fast to the shore, or ground.

The word "visible" in these rules, when applied to light, shall mean visible on a dark night with a clear atmosphere.

Sec. 12. Minnesota Statutes 1953, Sections 361.05; 361.22 to 361.27 are repealed.

ARTICLES OF INCORPORATION OF LAKE DETROITERS ASSOCIATION, INC.

KNOW ALL MEN BY THESE PRESENTS, that we, the undersigned residents of Becker County, Minnesota, do hereby associate ourselves together for the purpose of forming a corporation under and pursuant to Chapter 309 of the General Statutes of Minnesota for the year 1945 and Acts Amendatory, and do hereby adopt the following as our Articles of Incorporation:

ARTICLE I

The name of this corporation shall be "Lake Detroiters Association", Inc.

ARTICLE II

The purpose of this corporation shall be the consideration by scientific and educational methods or otherwise, of matters pertaining to the common welfare of its members and the community surrounding the lake known as "Detroit Lake," including lands adjacent thereto in Becker County, Minnesota; and action in the form of any and all things necessary to the attainment of such desires of its members or cultural objectives as have the approval of a majority of legally voting members; including in such consideration and action such matters as the preservation and improvement of said lake and lands; the regulation of water levels; the propagation and preservation of fish; the control of weeds and algae growth; the control of pollution and other sanitary conditions; the promotion and enforcement of game laws of the state; the regulation of water craft; the protection of homes and property of its members; the betterment of roads and highway conditions in the area; the control of common nuisances such as mosquitoes, noxious weeds and unnecessary noises; the promotion of a cooperative spirit within the corporation, between the corporation and similar associations in the vicinity and between the corporation and local governmental units and citizens thereof; and the corporation is hereby authorized to acquire and own such real and personal property as may be desired to carry out its purposes and to do any and all business furthering the purposes of the corporation and other acts or activities not inconsistent with the above and in the furtherance of the purposes of the corporation.

ARTICLE III

The postoffice address and the principal place of business of said corporation shall be Detroit Lakes, Becker County, Minnesota.

ARTICLE IV

The duration of this corporation shall be a period of thirty (30) years.

ARTICLE V

The names and places of residence of the incorporators are as follows, to-wit:
Willard D. Humphrey
Williams F. McRoberts
Byron G. Allen
all residing in Becker County, Minnesota, with postoffice addresses at Detroit Lakes, Minnesota.

ARTICLE VI

The management of this corporation shall vest in a board consisting of not less than seven (7) directors to be elected at each annual meeting of the corporation. The directors shall be elected for a term of one (1) year. The first board of directors, however, which shall serve only until the first annual meeting, shall be three (3) in number and shall consist of the three incorporators named in Article V.

ARTICLE VII

This corporation shall be a non-profit and non-stock corporation. It shall make no dividend or pro rata distribution of its funds to its members during

the life of the corporation. The operating funds of the corporation shall be derived from contributions by its members in such amount per year as is determined by its by-laws. There shall be three (3) types or grades of memberships.

FIRST—"The Active Member", shall be an owner of property which directly abuts on the waters of Detroit Lake, or the owner of property wherein no other privately owned land intervenes between said property and the water of Detroit Lake. Active members in good standing (as defined in the by-laws) are entitled to vote at the regular and special meetings of the corporation. The annual dues of the Active Members shall be five (\$5.00) dollars.

SECOND—"The Associate Member", shall be an owner of property which next adjoins property whose owner is qualified for active membership; or an owner of property which directly abuts the main highway around the waters of Detroit Lake; or a renter of property, the owner of which is qualified for either Active or Associate Membership. The Associate Member shall have no right to vote, but is privileged to participate in all discussions and in other activities of the corporation. The annual dues of the Associate Member shall be two (\$2.00) dollars.

THIRD—"The Sustaining Member", shall be any individual connected with any business enterprise, profession, trade or government unit, having a natural interest in the affairs of the corporation and who may wish to express their views to the membership. Sustaining Members shall have no right to vote, but are privileged to participate in all discussions and in other activities of the corporation. The annual dues of the Sustaining Members shall be ten (\$10.00) dollars.

ARTICLE VIII

The regular annual meeting of the corporation shall be held in the month of July or August of each year, at such time and place in Becker County, Minnesota, as may be fixed by the Board of Directors. A special meeting of the corporation may be called at any time in accordance with the by-laws upon giving five (5) days' notice to the members by mail, or by publication of notice for one (1) week in a newspaper of general circulation in Becker County, Minnesota. The fiscal year of the corporation shall date from the first day of May of each calendar year to the first day of May of the succeeding calendar year. A minimum of twenty (20) active members in good standing shall constitute a quorum at any annual or special meeting of the corporation.

ARTICLE IX

The corporation shall have no indebtedness in excess of unpledged funds in the treasury, nor shall its officers or directors contract the payment of any money in excess of unpledged funds then at hand in the treasury.

ARTICLE X

The general officers of said corporation shall be a President, Vice President, Secretary and Treasurer. The President and Vice President shall be elected by the directors from their number who shall first be elected by the members of the corporation. The Secretary and Treasurer shall be appointed by the Board of Directors.

All Directors and Officers shall serve for the period of their election or appointment and until their successors are duly elected or appointed and qualified.

ARTICLE XI

(a) The principal duties of the President shall be to preside at all meetings of the members and meetings of the directors and to have a general supervision of the affairs of the corporation.

(b) The principal duties of the Vice President shall be to discharge the duties of the President in the event of the absence or disability, for any cause whatever, of the President.

(c) The principal duties of the Secretary shall be to keep a record of proceedings of all meetings of the members and meetings of the Board of Directors and to keep safely all books,

records and documents belonging to the corporation or pertaining to the business thereof.

(d) The principal duties of the Treasurer shall be to keep an account of all credits, monies and property, of any and every nature of the corporation, which shall come into his hands, and keep an accurate account of all monies disbursed, and to render such accounts, and inventories of monies received and disbursed, and of money and property on hand, and generally of all matters pertaining to his office, as shall be required by the Board of Directors.

ARTICLE XII

Private property of the members shall be exempt from corporation liability.

ARTICLE XIII

Amendments to these Articles may be made at any annual meeting of the corporation or special meeting called for the specific purpose by affirmative vote of two-thirds (2/3) of the Active Members in good standing present and voting at that meeting.

THE BY-LAWS of The LAKE DETROITERS ASSOCIATION, INC.

ARTICLE I

OBJECT: The object of this Association, in addition to the legal objects as stated in Article II of the Articles of Incorporation, shall be to promote a more intimate acquaintance among its members and to provide through appointment of suitable committees, a keener interest in sports, pastimes and such other pleasures as are incidental to recreational and community life.

ARTICLE II

Section 1. The annual meeting of the corporation shall be held as provided in Article VIII of the Articles of Incorporation, and the order of business shall be:

- First: Minutes of Previous Meeting.
- Second: Reports of Board of Directors and Officers.
- Third: Unfinished business.
- Fourth: Election of Board of Directors.
- Fifth: New Business.

Section 2. Special meetings of the corporation may be called as provided in Article VIII of the Articles of Incorporation by authority of the President or a majority of the Board of Directors.

Section 3. The Board of Directors shall meet for the transaction of business following the annual meeting of the corporation, and upon the call of the president or any three directors, in writing, provided notice shall be given by mail to each member of the board before the time designated for said meeting. At all meetings of the Board of Directors, a majority shall constitute a quorum.

ARTICLE III

The annual contribution from each member shall be as follows:

Active Member Five Dollars (\$5.00)
Associate Member Two Dollars (\$2.00)
Sustaining Member Ten Dollars (\$10.00)

Annual contributions are due and payable to the Secretary on May 1 for the fiscal year beginning on that date, and a member ceases to be in good standing who fails to make the current contribution prior to August 1 of the current year.

New members of whatever type who qualify under Article VII of the Articles of Incorporation may be admitted at any time on payment of the annual contribution applicable thereto. New members joining between January 1 and May 1 will have their initial contribution applied to the following fiscal year.

ARTICLE IV

DELEGATION OF RESPONSIBILITIES. In addition to and in amplification of the principal duties assigned the officers in Article XI of the Articles of Incorporation, the following duties and responsibilities are specified:

Section 1. The President shall be the head and principal officer of the corporation and in him shall be vested the authority to manage and govern the affairs of the Association subject to the scope of the Articles of Incorporation and By-laws currently in force. He shall preside at all meetings of the corporation and Board of Directors and shall enforce all laws and regulations of the Association. He shall appoint all standing committees provided for in the By-laws, and be an ex-officio member of each committee. He shall, together with the Secretary and with the approval of the Board of Directors, make and execute all contracts for and on behalf of the Association.

At the annual meeting of the corporation, the President shall on behalf of the Board of Directors, make a full report of their proceedings during the preceding year, and recommend such measures as they deem advisable.

Section 2. Should neither the President nor Vice President be present at any meeting, a chairman shall be chosen by vote of the members of the meeting body.

Section 3. The Secretary shall keep a record of all members, minutes of meetings of the corporation and Board of Directors, and he shall issue notices of the meetings to all rightful members.

He shall collect the annual contributions from all members and pay same over to the Treasurer, and shall render an annual report at the annual meeting of the corporation. The Secretary shall give a fidelity bond to be approved by the Board of Directors.

Section 4. The Treasurer shall safeguard the funds of the corporation by placing such funds on deposit in Detroit State Bank of Detroit Lakes, Minnesota, subject to withdrawal by check signed by the Treasurer, or in his absence or disability by the President.

The Treasurer shall, at the annual meeting of the corporation, submit a detailed report of all receipts and expenditures for the preceding fiscal year. The Treasurer shall give a fidelity bond to be approved by the Board of Directors.

ARTICLE V

The President shall appoint the following standing committees, whose duties shall be hereinafter prescribed:

- Membership
- Auditing
- Roads and Traffic
- Fish and Game
- Sanitation and Pollution
- Weed and Algae Control
- Water Level Regulation
- Water Craft Regulation
- Property Protection
- Insect and Land Weeds Control
- Utilities and Taxes
- Annual Bulletin

The term of office of said committees shall commence on the first day of September of each year and continue for one year and until their successors are appointed and shall have entered upon their duties.

The President shall have the authority irrespective of the other conditions of the By-Laws to increase the number of members herein specified as constituting each committee.

THE MEMBERSHIP COMMITTEE shall consist of nine members, whose duties shall be to endeavor to secure the membership of all eligible persons, associations or corporations owning property, residing at, or patronizing the area as a resort, in accordance with the type of membership for which each party qualifies. Said committee is authorized to adopt such means in obtaining members as a majority may determine.

THE AUDITING COMMITTEE shall consist of three members, whose duties shall be to audit the reports of all officers of the Association at each annual meeting or at such other times as may be demanded of them by the Board of Directors, making their report either to the Board of Directors or to the annual meeting of the Association.

ROADS AND TRAFFIC COMMITTEE shall consist of three members, whose duties shall be to secure all reasonable and possible improvement of roads around the waters of Detroit Lake and of the connecting highways, during both winter and summer; to work for the betterment of traffic congestion, speed control and safety by such measures as the creation of diversionary roads, widening of present roads, adequate markings, policing, clearing of dangerous turns and by all other feasible means.

THE FISH AND GAME COMMITTEE shall consist of three members, whose duties shall be to see that, so far as practicable, full protection under the game laws is secured and that the waters of Detroit Lake receive their adequate share of replenishment annually; and in addition to securing for the lake that to which it is entitled, to render to the local fish and game wardens and other officers of the State every effort and assistance possible in the performance of their work.

THE SANITATION AND POLLUTION COMMITTEE shall consist of five members, whose duties shall be to prepare sanitation rules for the guidance of all property owners in the area and to work for the enforcement of Federal and State Laws governing the pollution of streams and other bodies of water in which the Association is most directly interested.

THE WEED AND ALGAE CONTROL COMMITTEE shall consist of five members, whose duties shall be to make a comprehensive and continuing study of lake weeds and algae control; to keep their findings of all scientific fact and other matters in the records of the Secretary of the Association; and to formulate a program for a proper and effective control of excessive weeds and algae growth in the waters of Detroit Lake, from year to year. It shall be the further duty of this committee to consult and maintain contact with Federal, State and other governmental and educational authorities on this subject and with similar local associations and groups, seeking the cooperation and assistance of all in furthering the lake weed and algae control program of this Association, as approved by the Board of Directors.

THE WATER LEVEL REGULATION COMMITTEE shall consist of five members, whose duties shall be to make a comprehensive and continuing study of the water level conditions in Detroit Lake and its inflowing and outflowing water system, including the problem of pressure ice in the winter; to keep all their findings of fact in the records of the Secretary of this Association; and to formulate a program for a proper and effective control of the levels of said waters during different seasons of the year and from year to year. It shall be the further duty of this committee to consult and maintain contact with State, County and other governmental authorities on this subject and with similar local associations and groups for the purpose of furthering the aims of the water level program of this Association, as approved by the Board of Directors.

THE WATER CRAFT REGULATION COMMITTEE shall consist of five members, whose duties shall be to promote safety and courteous conduct in the navigation of the waters of Detroit Lake. The means to this end shall include the formulation of Association Rules (subject to approval of the Board of Directors and to amendment from time to time) for the operation of sail boats, motor-powered boats (both inboard and outboard) rowboats, canoes, aquaplanes and any other water-borne conveyances, as may be deemed necessary by the committee, both in regard to the safe operation of an individual boat and in the relation of one boat to

another in matters of right-of-way, signaling, speed under various conditions and in various places, night-time markings and other safety measures. Also included in the responsibilities of this committee shall be a continuing study of the need for marking danger spots in the lake, of obtaining, placing and caring for suitable markers, and of undertaking study and planning action upon all other matters which may contribute to safety upon the waters of the community.

THE PROPERTY PROTECTION COMMITTEE shall consist of five members, whose duties shall be to organize and supervise a system, subject to approval of the Board of Directors, by which non-resident owners of homes (or residents who may expect to be absent for a long interval) who are members of any type or grade of the Association in good standing, may obtain protection for their buildings and premises during the winter season and thus gain the economy of cooperative effort. Among the ways of protection to be considered annually are the posting of Association reward signs; inspecting at weekly intervals of building exteriors by patrols who would close open doors and windows and report promptly all damage or loss by the elements or evidence of trespass to the owner and follow up the relevant facts with local authorities of the law; arranging for supplementary patrols by local authorities at special times, and investigating the possibilities of blanket insurance on such manner of risk by all owners wishing to avail themselves of it. The financing of such protection shall be borne primarily by those members who avail themselves of the system but the Association shall assist in such manner and to the extent that is approved annually by the Board of Directors.

This committee shall also be responsible for keeping the members advised as to their rights in maintaining the value of their property against undesirable encroachments, including enforcement of existing zoning ordinances or restrictions, recommending new ordinances, and similar activities.

THE INSECTS AND LAND WEEDS CONTROL COMMITTEE shall consist of three members, whose duties shall be to organize facilities for the cooperative use of members in the control of insects, especially mosquitoes, and of noxious land weeds such as poison ivy and dandelions; to promote the use of such facilities in every practical way, seeking the cooperation and help of all interested parties.

THE UTILITIES AND TAXES COMMITTEE shall consist of three members, whose duties shall be to study the conditions under which members of the Association are served by all public utilities, and, similarly, to survey the situation as regards all forms of public tax assessments; to form conclusions as to the fairness and equity of the charges which result therefrom to members of the Association; to recommend such changes as seem warranted; and to work for the attainment of changes recommended. The activities of this committee shall be a continuing project from year to year.

THE ANNUAL BULLETIN COMMITTEE shall consist of three members, whose duties shall be to arrange for the publication of an annual bulletin, which bulletin shall include annually its Articles of Incorporation, its by-laws, minutes of the last annual meeting, reports of officers, a list of all members in good standing, a list of all committee members and all other informational data such as sailing guides, courtesy rules, maps of danger spots and so forth that may have been developed during the year and which are deemed by the committee to be desirable to publish.

ARTICLE VI

These by-laws may be amended at any annual meeting or any special meeting called for the specific purpose; provided that no provision in the by-laws may violate any of the provisions of the Articles of Incorporation.

STATE OF MINNESOTA—DEPARTMENT OF CONSERVATION

COMMISSIONER'S ORDER NO. 1450.

RELATING TO THE DESTRUCTION OR CONTROL OF GROWTH OF AQUATIC PLANTS, ALGAE,
SNAILS, LEECHES AND OTHER INVERTEBRATE AQUATIC LIFE IN PUBLIC WATERS.

Pursuant to authority vested in me by law, I, George A. Selke, Commissioner of Conservation, do hereby prescribe the following regulations governing destruction or control of growth of aquatic plants, algae, snails, leeches and other invertebrate life in public waters.

Section 1. Banner grass, reed, cane, bulrushes, cattails or other aquatic plants may be taken in any amount sufficient to construct shooting or observation blinds.

Section 2. Aquatic vegetation of any kind may be cut or pulled from established beaches used for swimming or from boat channels or landings in sufficient amount to permit navigation.

Section 3. Other than in posted fish spawning areas or areas otherwise specifically designated, aquatic plant control preparations whose active ingredients are 2,4-D, 2,4,5-T and sodium dichloropropionate (Dalaphon) may be applied to water plants on established beaches used for swimming or in boat channels or landings by the riparian property owner, provided, that the area to which the chemical is to be applied does not exceed 2,000 square feet. For other chemical control see Section 7a.

Section 4. Aquatic vegetation in waters under the control of any governmental body may be removed by the same.

Section 5. Flowers and fruits of aquatic plants may be taken for personal use, but not for sale. The yellow lotus (*Nelumbo pentapetala*), a wild flower protected by law, may not be taken for any purpose.

Section 6. The down and seed spikes of cattails may be harvested from any public water.

Section 7. The destruction or control of growth of aquatic vegetation, algae, snails, leeches and other invertebrate aquatic life by methods or in amounts other than those stipulated in the foregoing sections shall require a permit from the commissioner and be subject to the following limitations:

a. Except as hereinafter provided, no person shall add or apply chemicals, other than 2,4-D, 2,4,5-T and sodium dichloropropionate (Dalapon) to public waters for the purpose of destruction or control of aquatic plants, algae, snails, leeches or other kinds of invertebrate aquatic life without first being authorized by permit from the commissioner.

b. The application for such permit shall be made to the director of the Division of Game and Fish, Department of Conservation, on forms provided by him.

c. Sodium arsenite and other chemicals with poisonous and corrosive properties, may be applied to public waters only by spraying operators having a permit from the commissioner; except that copper sulphate for algae or snail control may be applied by private persons.

d. Permits to spraying operators shall be granted upon receipt of an affidavit stating that the permittee has in force and effect liability insurance coverage in the amount of \$20,000 against liability for property damage and \$40,000 against liability for personal injury. The name and address of the insurance company and the name and address of the Minnesota agent shall be set out in the affidavit.

Section 8. Any permit may be revoked at any time when the activities of the permittee endanger human life; are destructive to fish or other wildlife; or for any other valid reason necessary to protect the interests of the public. Non-compliance with any regulations set forth in this order shall be grounds for revocation of any permit or refusal to renew the same.

Section 9. Any violation of the foregoing regulations shall constitute a misdemeanor and be punishable as provided by law.

Section 10. This order shall rescind and supersede any and all regulations heretofore issued relating to the destruction or control of growth of aquatic plants, algae, snails, leeches and other invertebrate aquatic life in public waters.

Dated at Saint Paul, Minnesota, this 10th day of May, 1956.

Approved as to form and execution
this 10th day of May, 1956.

MILES LORD
Attorney General

/s/ Melvin J. Peterson

/s/ George A. Selke
GEORGE A. SELKE
